

FOOD FOR KIDS

Dear Frost Families:

The Frost PTO is pleased to announce the Food for Kids program at the school this year. With this program, we are looking to help support the nutritional needs of our students and their families by providing access to weekend food supplies, nutrition education and more. We need your help to launch our program and keep it sustainable.

Volunteer opportunities will be available soon to pack food for the program. If you are interested in helping with the packing process or joining our planning committee, please complete the form below and return to your child's teacher or the office.

Feel free to contact committee chair, Michelle Notini at 847-287-7984 with any questions.
